This book is the culmination of more than nine years of research by Norma Eckard, her daughter Amy and husband Ronald. These stories were collected and curated from local families and individuals who still

carry the memories of war.

Their project began as an effort to preserve the history of the recently recognized 1918 Fort Caswell Rifle Range but grew to serve as a tribute to the soldiers and nurses who each had a connection to Fort Caswell.

This book documents the sacrifices and triumphs that occurred while serving their country during a time of war. Many of these stories have never been in print.
